Working With Menus

WordPress menus allow you to place links to pages, categories, tags, and other custom links in strategic places on your website. The main area you will use a menu is at the top of your portfolio as the main navigation links for your visitors.

Getting to know the menu:

To access the menu click **Appearance > Menus** from your WordPress dashboard. By default, your main menu will include links to **Home, Community & Service, Innovation & Enterprise, Teamwork & Leadership, Sports & Fitness, and Help.**

Top Level Menu Items vs Sub Menu Items

You can add items to your menu as a part of the top level menu or nest them under a top-level item to create sub menu item.
