# Create a Post

## Step 1

In your WordPress dashboard click **Posts > Add New**.

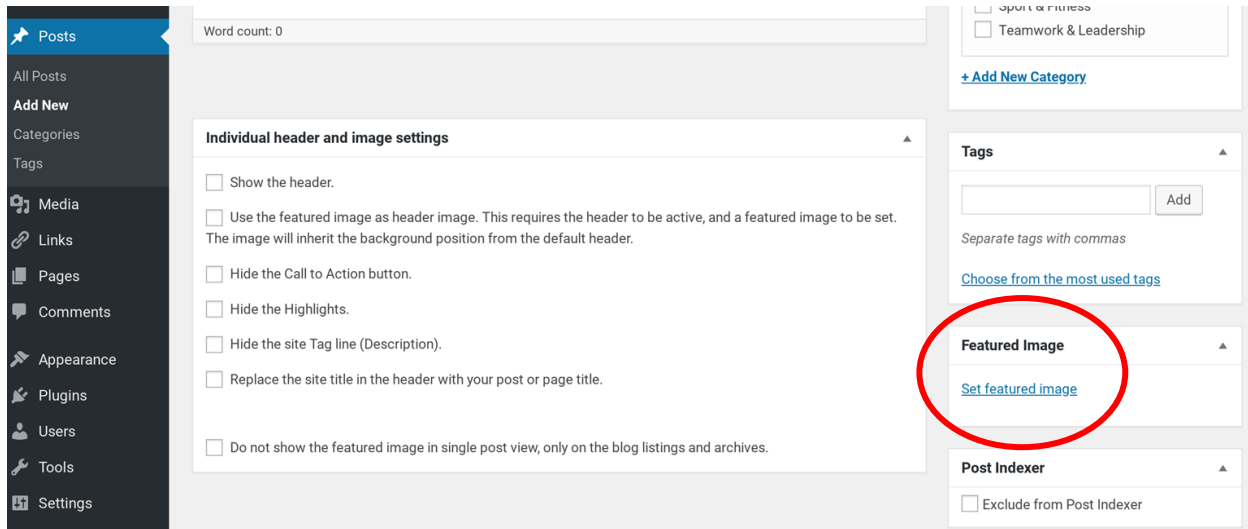

Step 2
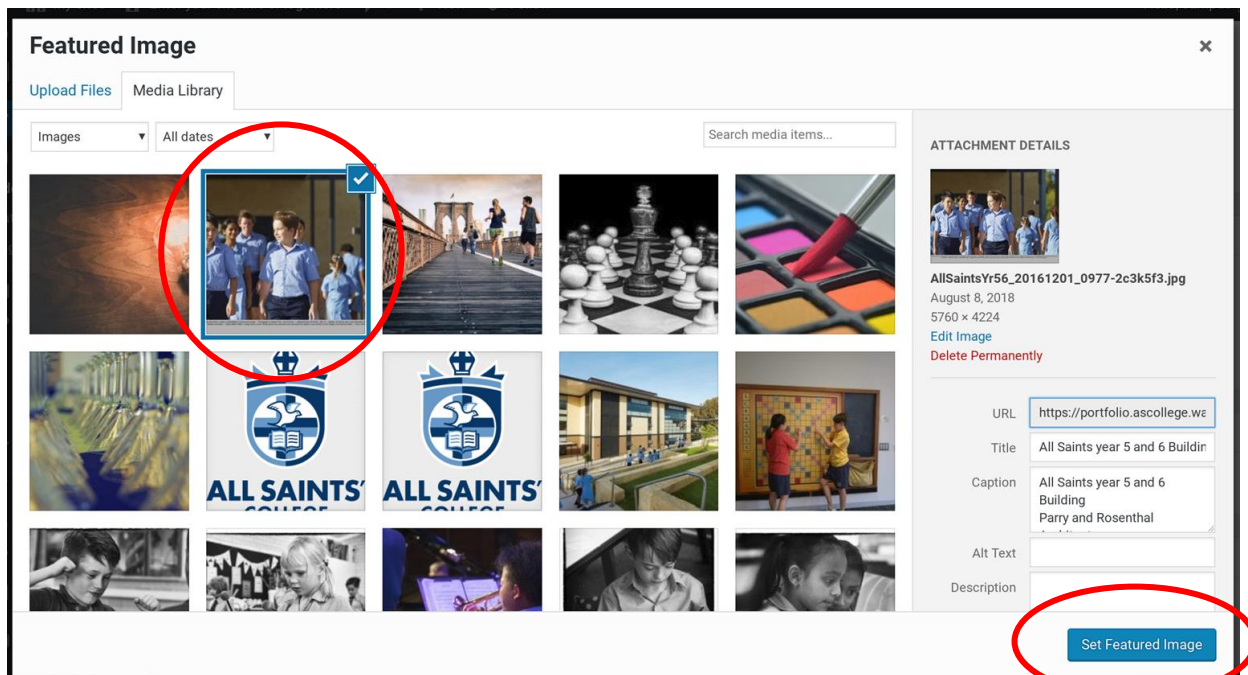

Give the post a title and add post content.
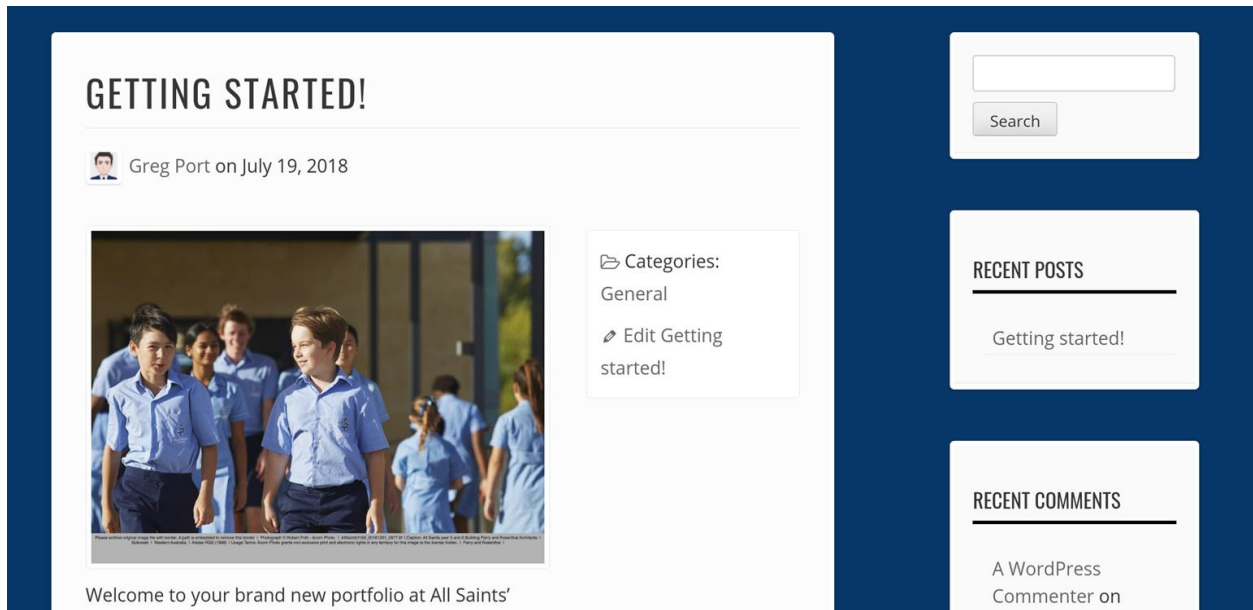

Step 3

Add a featured image if desired. To do this you will click "**Set Featured Image**" in the bottom right area of the post admin page.

Select the photo you wish to use from the Media Library or upload a new photo.

Once published, this image will appear above your post on the homepage, as well as on the post page.

Step 4

Click "**Save Draft**" to save your post without publishing. Click "**Publish**" when you are prepared to make the post live for viewers.
