

THINK BEFORE YOU DRIVE

IF YOU'RE DRINKING, DON'T DRIVE.

BE RESPONSIBLE WHEN YOU DRINK!

Car crashes caused

42 people died in alcohol related car crashes in 2020 alone. It is found that younger drivers 16-20 years are 17 times more likely to die in a car accident when alcohol is their blood.

Plan ahead

If you plan on drinking, plan a way of getting home. Have a plan B in case you change your mind about drinking.

Penalties

There are a number of different penalties for drink driving in Australia ranging from a \$100,000 fine, driving disqualifications and imprisonment.

How much can you have?

Producers must not have more than 0.00 alcohol in blood to drive. Anyone on an ordinary drivers license must have no more than 0.05 alcohol in their blood stream.

How does alcohol effect your driving?

Alcohol has a physiological impact on your ability to drive. It increases drowsiness, slows brain function, elevates confidence and impairs vision.
